One of the conditions of UC student reps receiving funding for CAURS was that they start a Registered Student Organization (RSO) on campus. At UC CAURS is now a Registered Student Organization. All participating universities—except NU—should try to set up a similar status for CAURS at their university: to secure funding each, and every, year.

**\*All of the participating universities—except UIC—contributed \$5,000 to fund the symposium in 2006. CAURS 2007 needs to re-establish a relationship with UIC (e.g. show them how successful the event was in '06 and that IIT and DePaul are now participating).**
